1. Safety instructions

Welcome

Congratulations! You now own one of the most state of the art and technologically advanced high definition Television products available. In order to make set-up as easy as possible, we would like to familiarize you with the features and functions of this special product. Please read this user's manual carefully and thoroughly and keep in a safe place for future reference.

We thank you for your business and hope you enjoy this product.

Caution

RISK OF ELECTRIC SHOCK
DO NOT OPEN

CAUTION: TO REDUCE THE RISK OF ELECTRIC SHOCK, DO NOT REMOVE COVER (OR BACK), NO USER-SERVICEABLE PARTS INSIDE. REFER SERVICING TO QUALIFIED SERVICE PERSONNEL

This symbol is intended to alert the user to the presence of uninsurable "dangerous Voltage" within the Product's enclosure that may be of

Sufficient magnitude to constitute a risk of electric shock to persons.

This symbol is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the

Literature accompanying the appliance.

CAUTION

-TO PREVENT DAIMAGE WHICH MAY RESULT IN FIRE OR SHOCK HAZARD
-DO NOT EXPOSE THIS APPLIANCE TO RAIN OR MOISTURE.
-SHOCK HAZARD DO NOT OPEN

CAUTION

These servicing instructions are Use by qualified service personnel only. To reduce the risk of electric shock, do not perform any servicing other than that contained in the operating instruction unless you are qualified to

CAUTION

The stand intended for use only with this TV. Use with other apparatus is capable of resulting in instability causing possible injury.

WARNING

-Apparatus shall not be exposed to dripping or splashing and no objects filled with liquids, such as vases, shall be placed on the apparatus.
-This is Class B product. In a domestic environment this product may cause radio interference in which case the user may be required to take adequate measures.
To reduce the risk of fire and electric shock, do not expose this product to rain moisture.

WARNING

-Apparatus shall not be exposed to dripping or splashing and no objects filled with liquids, such as vases, shall be placed on the apparatus.
-This is Class B product. In a domestic environment this product may cause radio interference in which case the user may be required to take adequate measures.
To reduce the risk of fire and electric shock, do not expose this product to rain moisture.

FCC NOTICE

This device has been tested and found to comply with the limits for a Class B device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in home environment as well as in a commercial, industrial or business environment. This equipment can generate, use and radiate radio frequency energy and, if not installed and used in accordance with the instruction, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by tuning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
 - Increase the separation between the equipment and receiver.
 - Connect the equipment into an outlet on circuit's different form that to which the receiver is connected.
 - Consult the dealer or an experienced radio/TV technician for help.
- Changes or Modification not expressly approved by the party for compliance could void the user's authority to operate the equipment.
Connecting of peripherals requires the use of grounded shielded signal cables.

Important Safety Precautions

Always be careful when using your television. To reduce the risk of fire, electrical shocks, and other injuries, keep these safety precautions in mind when installing, using, and maintaining your Television.

- λ Read these instructions and keep them in a safe place.
- λ Heed all warnings.
- λ Follow all instructions.
- λ Do not use this apparatus near water.
- λ Do not block any of the ventilation openings.
- λ Install it in accordance with the manufacturer's instructions.
- λ Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
- λ Do not defeat the safety purpose of the polarized or grounding type plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prong. The wide blade or the third prong is provided for your safety. When the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
- λ Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the Television.
- λ Only use the attachments/accessories specified by the manufacturer.
- λ Use only with a cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the Television. When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.
- λ Unplug this Television during lightning storms or when unused for long periods of time.
- λ Refer all servicing to qualified service personnel. Servicing is required when the Television has been damaged in any way, such as power supply cord or plug is damaged, liquid has been spilled or objects have fallen into the unit, the Television has been exposed to rain or moisture, does not operate normally, or has been dropped.
- λ Clean only with a lint free cloth.
